Solid Rocket Motor tested at Marshall Thursday

The Space Transportation Directorate tested a 24-inch solid rocket motor at Marshall Thursday for the Reusable Solid Rocket Motor Project Office. The motor is a versatile, quick turn-around low-cost test bed. The baseline test motor will be used to proof thermocouple plugs designed for use in the Engineering Test Motor 3 and to show how the improved two-piece throat design on the exit cone performs. The test will also evaluate how erosion affects a longer exit cone.

"I Think Safe Because" badges at MSAT booth Monday, 11 a.m.-1 p.m., Bldg. 4200 complex area; bring small photo to be laminated

Post office in Bldg. 4200 open 9:15 a.m.-noon only; drop mail picked up at 3 p.m. as usual

Center blood drive Friday

The American Red Cross blood drive will be Friday from 8 a.m.-1:30 p.m. in the Wellness Center, Bldg. 4315, on Digney Road. All blood types are especially needed. Donors will receive free T-shirts and gift certificates for a free pizza and a free sandwich. For details, call Nancy Jane Fitzgerald at 544-7561.
